

Cyber Security Gameboard

Help i-Buddy navigate the Internet safely.

Directions: Print out our question cards, and cut them apart. Divide the class into teams, and assign a game token (or limit to three players). Players roll a set of dice (or use our spinner template), take a card, answer the question correctly, and move the number of dots on the die. The first player/team to reach the end of the game wins. Continue playing to find out who comes in second and third. We have provided some blank cards for you to create questions that reflect what you feel your students should know.

Answer Key

1. Delete e-mail; do not open attachment.
2. Never download items when not from a valid store, etc. You could be getting malicious code, etc. Also, you could be stealing the game and breaking the law.
3. No
4. False
5. Yes
6. False
7. False
8. True
9. Phone call
10. Web site url, author, date, Web site title, any identifying information so you can cite the source later

Game Tokens

Question Cards
