

i-SAFE provides resources and materials for the following meetings, trainings, and activities for registered i-PARENTS.. Please register at [www.isafe.org](http://www.isafe.org), or click on “Become an i-PARENT” on this Resource page.

## **Conduct a Meeting**

### **i-PARENT Program**

A meeting that is designed to provide parents i-SAFE Internet safety information. An i-Parent Program is the opportunity to get involved with raising Internet safety awareness throughout the community. An i-Parent Board is usually formed from an i-Parent Program.

### **Community Leaders Meeting**

This is a meeting where Internet safety information is provided to community leaders. A CLM provides the opportunity to get involved with raising awareness of Internet safety throughout the community.

### **School Board Orientation**

An Internet Safety Presentation provides parents, educators, law enforcement, or community members with ways to implement the i-SAFE Program. The intended audience is exposed to the Education and Outreach programs i-SAFE provides and specifically how they can get involved with i-SAFE America

## **Conduct a Training**

### **i-PARENT Training**

The i-Parent Training provides parents an opportunity to educate and conduct training sessions for other parents about online safety and introduces parents to the i-Parent Campaign.

## **Conduct an Activity**

### **Information Table**

An Internet Safety Outreach Activity that involves setting up a table at their school, grocery store, or mall and distributing Internet safety information. i-SAFE provides the materials to be distributed.

### **Brochure Distribution**

An Internet Safety Outreach Activity that allows individuals to distribute i-SAFE Internet safety brochures to let others in the community learn how to protect themselves online. The i-SAFE brochures contain Internet safety information, tips, and direct the recipient(s) to [www.isafe.org](http://www.isafe.org) if they're looking for more information

### **Parent Assisted Assembly**

The i-SAFE Assembly Experience is a 45-minute interactive multimedia experience for grades 5-12 that speaks directly to the youth of America. With the use of lights, videos, and true-life stories, i-SAFE shows how actions in the cyber world can have serious real-world consequences. The assembly serves as a launching pad for the i-SAFE Curriculum, Drive Campaign, and the Student Mentor Program.

Cyber Security (National Cyber Security Alliance Assembly Experience)  
Online Predators (Online Predators Assembly Experience)  
Intellectual Property (What's the Download? Assembly Experience)  
Downloading music responsibly (Music Rules Learn B4 U Burn Experience)  
Anti-Piracy (The Donny the Downloader Experience)
